SUMMARY

Software Developer with a strong track record in full-stack development, eager to contribute to an innovative company focused on technology and management consulting. Experienced in creating reusable components for enterprise-level web applications. I am passionate about staying updated with emerging technologies and applying them to solve real-world challenges, with a strong foundation in tech skills and a commitment to continuous learning.

EDUCATION

Bachelor of Computer Applications (BCA)

Navrachana University

2022 - 2025 India, Gujarat

CGPA

8.13 / 10

EXPERIENCE

Software Developer Intern(Full-Stack)

Digital Cruze

05/2023 - Present Vadodara, Gujarat

Software Agency

- Developed and maintained full-stack web applications using React for the frontend and Firebase for the backend.
- Worked on live projects, collaborating with team members to meet project deadlines and deliverables.
- Participated in the complete software development lifecycle, including requirement analysis, design, development, testing, and deployment.
- Implemented features and fixed bugs based on user feedback and testing results.
- Gained hands-on experience with real-world projects, enhancing technical skills in React, Next.js, and TypeScript within a fast-paced environment.

Wizard Developer

Google Student Developer Club

08/2023 - Present India, Gujarat

Developer Club

- Actively involved in the Google Student Developer Student Club, contributing to the development of web pages for university events.
- Responsible for converting UI/UX designs into functional code, ensuring seamless user experiences.
- Collaborated with team members to brainstorm ideas and implement innovative solutions.
- Gained valuable experience in web development, project management, and teamwork within a professional setting.

PROJECTS

Property Dial

<https://property-dial.web.app/>

A dynamic and responsive enterprise-level real estate web application that supports property listing, search filtering, user authentication, and inquiry functionalities.

- Developed a dynamic enterprise-level real estate web application using React, ensuring responsive design across all devices.
- Implemented dynamic backend services with Firebase, including real-time database management and user authentication.
- Added a dynamic search filter functionality to enhance user experience in finding properties based on specific criteria.
- Enabled property listing features, allowing users to list properties for sale and rent.
- Integrated inquiry functionality, enabling users to send inquiries about specific properties.

Nike E -Commerce Website

<https://nike-e-commerce-website.vercel.app/>

Created a sophisticated e-commerce platform for Nike utilizing React, Tailwind CSS, Redux, and various React libraries.

- Crafted an aesthetically pleasing UI/UX design, prioritizing intuitive navigation and user engagement.
- Employed advanced code optimization techniques to enhance readability and streamline debugging processes.
- Integrated robust functionality for cart management and seamless user interactions.

PROJECTS

Personal Portfolio Website

[🔗 martin-shaikh.vercel.app](https://matin-shaikh.vercel.app)

Created a dynamic portfolio website utilizing React, Tailwind CSS, Material-UI, and Semantic UI to showcase professional expertise. Emphasized seamless UI/UX design for an intuitive browsing experience.

- **Enhanced Professional Image:** Developed a polished portfolio showcasing skills and projects, enhancing professional image.
- **Technological Proficiency:** Demonstrated proficiency in modern web technologies (React, Tailwind CSS, Material-UI, Semantic UI).
- **Personal Growth:** Successfully applied skills to create a functional and aesthetically pleasing website, signifying personal growth as a developer.
